MOHD SAUD

Cloud Engineer | AWS | Linux | Terraform | DevSecOps **Portfolio:** mohdsaud888.github.io/Personal_Portfolio

Lucknow, Uttar Pradesh, India | +91-9278352354 | mosaud1997@icloud.com | linkedin.com/in/mohd-saud-8z899 | github.com/MOHDSAUD888

PROFESSIONAL SUMMARY

Career-switcher into Cloud Engineering, combining a Computer Science degree with over four years of prior professional experience in customer-facing operations. Hands-on experience architecting highly available AWS infrastructure using Terraform (IaC) and building automated CI/CD pipelines with GitHub Actions, Docker, and Trivy security auditing. Solid foundation in Linux system administration, TCP/IP networking, containerization, and Python automation, with a strong focus on Shift-Left security practices.

TECHNICAL SKILLS

Cloud Platforms: Amazon Web Services (EC2, S3, VPC, IAM, ECR, Route 53, Secrets Manager, CloudWatch), Google Cloud Platform (GCP)
DevOps & IaC: Terraform (IaC), Docker, GitHub Actions, CI/CD Automation, Shift-Left Security, Trivy (Filesystem/Config/Image Scans)
Operating Systems: Ubuntu Linux, Kali Linux, Windows Server, Linux System Administration, Bash Shell Scripting
Networking & Security: TCP/IP, DNS (Route 53), DHCP, HTTP/HTTPS, VPC Subnetting, Routing Tables, Firewalls, Security Groups, IAM
Programming & Tools: Python, HTML/CSS, JavaScript, Git, GitHub, VS Code, VMware, VirtualBox, MySQL

PROFESSIONAL EXPERIENCE

Service Advisor
Oneup Motors India Pvt. Ltd. – Authorized Maruti Suzuki Dealership, Lucknow, Uttar Pradesh | Sep 2019 – May 2023

Managed customer service operations in a high-volume automotive workshop – coordinating with technicians, handling client communication and escalations, and managing service documentation and billing.

TECHNICAL PROJECTS

End-to-End Secure Cloud DevSecOps Pipeline & AWS Infrastructure
AWS • Terraform • GitHub Actions • Docker • Trivy • Amazon ECR • Amazon EC2 • CloudWatch

- Engineered an automated CI/CD pipeline using GitHub Actions triggered on push/PR events to streamline testing and cloud deployment.
- Integrated Shift-Left vulnerability management with Trivy to execute static code analysis, Docker image scans, and Terraform IaC audits.
- Containerized application workloads with Docker and configured automated, authenticated image publishing to Amazon ECR.
- Automated provisioning of custom VPC (10.0.0.0/16) infrastructure across public/private subnets, Internet Gateways, and Route 53 using Terraform.
- Deployed containerized applications on Amazon EC2, integrating AWS Secrets Manager and IAM roles for least-privilege credential security.
- Configured infrastructure monitoring and metric alarms with Amazon CloudWatch, archiving audit logs to encrypted S3 buckets.

Automated AWS Infrastructure as Code (IaC) Provisioning
AWS • Terraform • IaC • Cloud Security • GitHub

- Architected modular Terraform configurations to automate repeatable deployment of multi-tier VPCs, subnets, EC2 instances, and S3.
- Configured remote backend state storage with DynamoDB state locking to ensure collision-free collaborative provisioning across teams.
- Hardened cloud resources by enforcing zero-trust Security Groups, encrypted S3 storage buckets, and tightly scoped IAM access policies.
- Maintained version-controlled Infrastructure as Code repositories on GitHub to enable automated drift detection and rapid environment spin-up.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering
Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow, Uttar Pradesh | Graduated: June 2026 | CGPA: 6.86 / 10

Diploma in Automobile Engineering
Integral University, Lucknow, Uttar Pradesh | 2018

CERTIFICATIONS & LANGUAGES

Certifications: AWS SAA – Associate (In Progress), GCP Skills Boost – Active Labs. **Languages:** English (Professional), Hindi (Native).
